

CSA EXAMINATION CARD

Patient Name: Scott Hawkins aged 2

Examination findings: Healthy, happy, well dressed boy. Looks well cared for. Good interaction with mum and with doctor. Normal gait. Runs without tripping. Both feet tend to in-toe, but ankles and feet have a normal range of movement and look a normal shape.

Whisper voice testing - Scott is able to hear a whispered voice at 2 feet from either ear. His tympanic membranes look healthy. There is minimal wax bilaterally.

Cover testing for visual acuity - Scott is able see any object clearly with either eye and there is no squint evident on cover testing of either eye.
